PROFESSIONAL SUMMARY

Aspiring Java Full Stack Developer with hands-on experience building end-to-end web applications using Java, Spring Boot, REST APIs, MySQL, HTML, CSS, and JavaScript. Skilled in designing scalable backend services, responsive user interfaces, and layered architecture (Controller-Service-Repository) for maintainable code. Completed a full-stack development internship and delivered two independent full-stack projects.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript

Frontend Development: HTML, CSS, JavaScript

Backend Development: Spring Boot, REST APIs, Java (Core)

Database: MySQL

Tools & Platforms: GitHub, VS Code, Postman

INTERNSHIP EXPERIENCE

Full Stack Development Intern

Mar 2026 – Apr 2026

Navodita Infotech — Remote

- Collaborated with a cross-functional development team to build full-stack web application modules using Java, Spring Boot, and React, contributing to on-time delivery of assigned features.
- Built and tested backend integration workflows connecting REST APIs to frontend components, strengthening hands-on experience with end-to-end application development.

PROJECTS

Attendance Management System

Tech Stack: Java | Spring Boot | MySQL | HTML | CSS | JavaScript

- Engineered a full-stack web-based attendance tracking system enabling real-time monitoring of student records across multiple departments.
- Designed an interactive dashboard with real-time attendance reports and streamlined CRUD functionality, improving data accessibility for administrators.
- Built RESTful APIs with Spring Boot and integrated them with MySQL to enable efficient, reliable backend data management.
- Developed responsive frontend interfaces using HTML, CSS, and JavaScript, ensuring consistent performance across devices.
- Architected a scalable, normalized database schema to support structured and optimized attendance record management.

Job Portal

Tech Stack: Java | Spring Boot | MySQL | HTML | CSS | JavaScript

- Led development of RESTful backend APIs using Spring Boot to manage job listings and applications end-to-end.
- Implemented CRUD operations for job postings and user profiles, ensuring accurate and efficient data handling.
- Integrated a MySQL database for organized storage and streamlined retrieval of employer and candidate information.
- Structured the application using a layered Controller-Service-Repository architecture to produce clean, maintainable code.
- Conducted comprehensive API testing and validation using Postman to ensure reliable, seamless portal performance.

EDUCATION

B.E., Computer Science and Engineering

CGPA: 7.96

Erode Sengunthar Engineering College, Thudupathi

Higher Secondary Education

Percentage: 76%

Komarappa Sengunthar Higher Secondary School, Chennimalai

CERTIFICATIONS

- Frontend Web Developer — Infosys Springboard
- Programming in Java — NPTEL

SOFT SKILLS

Communication | Teamwork | Problem Solving | Time Management
